Founded in 1918, Tallinn University of Technology (TalTech) is the largest university in the capital with more than 9,000 students. It ranks in the top 3% of the global universities and is also one of the most international universities in Estonia with students from 100 countries. The nearly 60 ha territory holds a smart digital campus where a self-driving vehicle, 5G internet and satellites are being developed.

TalTech puts great emphasis on the students’ international experience and also looks for innovative ways to enrichen the students’ learning opportunities, e.g. becoming a part of a European Universities Alliance EuroTeQ. The Schools of TalTech include the School of Business and Governance, the School of Engineering, the School of Information Technologies, the School of Science and the Estonian Maritime Academy.
