Centre of Excellence in Energy Efficiency

The 7th Estonian
DC Innovation Workshop
From maximum power to maximum value:
residential PV and battery systems in dynamic electricity markets

December 3, 2026
10:00 | Coffee at 9:30

TalTech Student House (Tudengimaja)
Ehitajate tee 5, Tallinn

How can households make solar and storage pay?

Join homeowners, installers, technology providers, researchers and policymakers to discuss how residential solar and battery systems can deliver greater value. Real examples from Estonia and across Europe will bring costs, operating results and lessons learned into focus.

Investment & operation
System sizing, electricity market, grid limits and flexibility services

Real experience
Cost, performance, and lessons from PV and battery installations

New technologies
Building-integrated PV, smart control, cybersecurity, etc.

6th Estonian DC Innovation Workshop | TalTech, 3 December 2025
